

VILLAGE OF ROCKTON - PROJECT PUBLIC NOTIFICATION

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY - STATE REVOLVING FUND

PUBLIC WATER SUPPLY LOAN PROGRAM

FACILITY: VILLAGE OF ROCKTON, IL WATER SYSTEM

PROJECT L17 5479 PRAIRIE STREET WATER TOWER REPAIR & REPAINTING

This project includes repair of parts of the Prairie Street Water Tower and a new coating system for the interior and exterior of the water tower.

The project scope includes the addition of a new overflow flap gate, riser manway, roof hatch, roof vent, fall prevention on the ladders, roof rail and painter's rail, sidewall ladder, roof ladder and step-off platform. The project also includes grout repair of the foundations and interior roof seam sealing.

This project will be beneficial to the village in several ways:

- Extend the life of the water tower.

- Provide improved access for maintenance of the water tower.

- Provide improved safety features for the personnel who access the water tower.

This project will be funded in its entirety by a loan from the Illinois Environmental Protection Agency.
