How to Obtain a Swimming Pool Permit

1. Obtain a packet from the Village.
2. Fill out the Swimming Pool Application using the requirements list.
3. Return the forms to Tricia Diduch for approval.
4. Take approved forms to the Winnebago County Building Department, located at 401 Elm Street, Rockford, Illinois, 61101, phone number 815-319-4350.

If you have any questions or concerns, please call Tricia Diduch at 815-624-0935 or email diduch@rocktonvillage.com.

A handwritten signature in cursive script that reads "Patricia Diduch".

SWIMMING POOLS. REQUIREMENTS

- (1) The provisions of this section shall control the installation, alteration, repairs, enlargement and maintenance of all swimming pools, whether existing or hereafter erected.
- (2) PERMITS.
 - (a) No person shall proceed with any installation, alteration or enlargement of a swimming pool without having first obtained a permit issued under this chapter.
 - (b) The provisions of this chapter shall not apply to pools having a depth capacity of less than 2 feet.
- (3) PONDS AND POOLS.

Artificial pools of water having a depth capacity of 2 feet or more, whether or not intended for swimming or wading purposes, shall conform to the requirements of this chapter.
- (4) LOCATION.

No portion of a pool shall be located less than 12 feet from any side or rear property line. Pumps, filters and disinfect equipment, shall not be located less than 15 feet to the property line. No pool and / or equipment shall not be located less than 30 feet from any property line having street frontage.
- (5) FENCES.

All outdoor swimming pools shall be completely enclosed by a fence or restraining barrier not less than 5 feet in height above the ground level directly below. Where gates are provided, they shall be at least the minimum height required for the fence or barrier and shall be equipped with self-closing and self-latching devices placed at the top of the gate. Fences and gates shall be constructed of not less than 11 gauge corrosion resistant woven wire and other approved material. Fence posts shall be decay and corrosion resistant and shall be set in concrete bases.
- (6) ELECTRICAL REQUIREMENTS
 - (a) Compliance with regulations. All electrical installations provided for and used in conjunction with pools shall conform to the regulations controlling electrical supply and equipment.
 - (b) Proximity to Pool. No current carrying electrical conductors shall be less than 15 feet from any pool, whether to the side of, underground or overhead.
 - (c) Metal. Metal fences, enclosures, railings and pool walls shall be effectively grounded to prevent accidental electrical charging
- (7) LIFELINES.

Pools having a depth capacity of 4 feet or more shall be equipped with not less than one throwing ring buoy. Such buoys shall be not less than 15 inches in diameter and shall be attached to a line which shall be not less than 3/16 inch thick and 1 ½ times the maximum reach of the pool.
